Basic DECT Handset

KX-TPA70

CORDLESS HANDSET WITH ENHANCED FEATURES

KEY FEATURES

- Maximized user experience on a small DECT LCD
- Intuitive but navigated operation
- Not only user interface, but also hardware experience is harmonized with the software

Comfortability & Guidance

Using the latest technologies, the KX-TPA70 will guide you in every step. The easy to understand structure of the menu will support you finding quickly the feature or quick dial you need. By utilizing the large color, high resolution display with a changeable background color, making the setting of extra functions so easy to be done without the use of a User Manual. Reducing time to learn how to perform the many features of the handset.

By embedding a new design the handset has a comfortable grip regardless if you are left or right handed. For extra comfortability you can connect a headset using the 3.5 mm phono-jack plug on the side of the handset.
